Backlog for Project													
User Story Identifier	Priority	Category	Team	Role	Need	Value	Acceptance 1	Acceptance 2	Acceptance 3	Acceptance 4	Acceptance 5	Story Points	Comments
1	1	Marketing		As a Marketing team member,	I want to track current market trends in the skincare industry on a real-time basis,	so that I can adjust marketing strategies to capitalize on emerging opportunities.	Display real-time market trend data	Provide a dashboard with visualizations accessible via the app.	Ensure <2s response time for trend queries.	4.Integrate with external data feeds	Allow export of trend data as CSV for on-demand reports.	8	Sprint 1
2	2	Customer	App Dev Team 1	As an AHI Customer,	I want secure invoicing for my orders,	so that my payment information is protected and transactions are reliable.	 Implement PCI-DSS-compliant invoicing with encrypted payment processing. 	Provide a user-friendly invoicing interface within the app.	Send email confirmation of invoice generation.	4. Ensure no unauthorized access to payment data	Allow customers to view invoice history.	3	Sprint 1
3	3	Finance		As a Finance team member,	I want to enable secure order invoicing and processing,	so that customer transactions are secure and financial data is accurate.	Integrate PCI-DSS-compliant payment gateway for invoicing.	Generate real-time transaction logs for Finance review.	3. Ensure 100% accuracy in invoice calculations	Support batch processing for high- volume orders.	Pass QMP security testing with zero critical vulnerabilities.	5	Sprint 2
4	4	AHI Leadership		As an AHI Leadership team member,	I want to target and engage with emerging markets,	so that AHI can expand its customer base and increase market share.	Provide a report identifying emerging markets based on real-time analytics.	Allow segmentation by demographics, regions, and trends.	Enable push notifications for new market opportunities.	Ensure report generation in <5s with on-demand access.	5. Integrate with Marketing analytics	2	Sprint 2
5	5	IT Team	App Dev Team 1	As an IT team member,	I want the app to interface with new hardware and software,	so that It operates seamlessly within AHI's IT infrastructure.	Ensure compatibility with new hardware	Support integration with AHI's existing software	Pass compatibility tests in Development phase	Maintain 99.9% uptime during operation	5. Document integration specifications	5	Sprint 2
